Home is where the light is

BOTT-LED

SOLAR POWER IN A BOTTLE

UNIQUE INNOVATION IN SOLAR LIGHTING!

GLOBAL PATENT DESIGN

SoLite Ultra BottLed is an ingenious, globally patented and simple solar device that transforms a standard threaded 22mm PET bottle (worldwide standard) for drinks and soda, into a lamp. SoLite Ultra BottLed simply screws onto the threaded bottle opening and becomes the body of a lamp. The potential for uses of this product is limitless!

Supplied with a lanyard for ease of carrying and for hanging up as a lantern, especially outdoors in a place that receives sunlight for recharging. It is a fun, potable, safe and Eco-friendly light that helps in many situations.

KEY BENEFITS

- ◆ Used as a small mobile light unit
- ◆ No need for fuel based lamps, or candle light which improves health and reduces fire risk
- ◆ Ideal for light in urban, peri-urban and rural dwellings when there are power outages
- ◆ Reduces electricity costs in regular households
- ◆ Promotes recycling of discarded PET bottles

The Solar panel provides a minimum of 4 hours of light after being exposed to a minimum of 4 hours of sunlight
