**REHABILITATION AND SANITATION FACILITIES FOR NYAMILAMA PRIMARY
SCHOOL PROJECT**

October 31,2010

Report Submitted By Ms. Edina Ihonde

Project Coordinator

Project Funded By TDT(Tanzania development trust)

THANKFUL WORD

The project of rehabilitation and sanitation facilities for Nyamilama primary school have been for an educational strategy that not only focuses on stepping girls education but also aims at shaping attitudes of gender equity.

The main goal of conducting this project to enable the participation of girls at puberty phase in school and further promoting the situation of girls education

Tthe project have proven to be effective in raising girls presence and devotion in their own education vision.

This report is the outcome of the **Tanzania development trust support** , without it the objectives of **Kwimba women development** to conduct this project should not been attained- Many thanks and congratulations

Special thanks go to the staff of **Tanzania development Trust**, for their cooperation, supportive attitudes to continue supporting this comendable initiative.

Kindest regards ,

Ms. Edina Ihonde

Project Coordinator

NARRATIVE REPORT

Rehabilitation and sanitation facilities for Nyamilama primary school project

NEEDSFOR CONDUCTING THE PROJECT

The situation of sanitation to the girls is very worse in different primary schools in Kwimba district, Mwanzan region.

Considering the situation of Nyamilama primary school, the poor sanitation have devastating impact on the education progress of girls at school.

Girls are facing the problem of school drop out , absenteeism when they at their menstruation stages in puberty as the condition of sanitation are very bad, toilets are exposed to the passing public without doors , lacking water and washing hands settings for Girls hygiene needs.

This is a major factor that disfavour the progress of girls at puberty age in school and also makes the majority of girls to be alliterated.

CONDUCTED ACTIVITY

As scheduled, **Kwimba women development** made a project presentation to different authorities including head-teacher , staff and school committee to introduce the project and willing to build latrines especialy for girls.

After good positive agreement, the organisation intered into contract with [**MOMO BUILDERS LIMITED, P.O. BOX 120, NGUDU/KWIMBA, MWANZA-TANZANIA**] to start with construction which take approximately [**THREE MONTHS**] from July 10, 2010 to October 11, 2010

[Pictures of building steps]

As a result, 5 latrines have completely terminated with iron, doors and ceiling boards as well hand washing also has been built.

[Pictures of buildings inside and outside]

IMPACT OF THE PROJECT

The project have been considered as a special commitment and contribution to development of the area.

It opened opportunities for all targeted girls to continue with thier studies .

KWIMBAWODE have received spcial thanks from authorities of education and school committees and invited to extend this kind of work to other affected schools of the district.

CHALLENGES

- ❖ Boys are seems to be excluded with good sanitation facilities.
- ❖ Financial constraints does not allow the organisation take into consideration demands from others schools as recommended
- ❖ Teachers also are in the same situation and are in need of modern latrines

RECOMMENDATION

The Kwimba women Developmet would recommend:

- ❖ Tanzania development trust to continue supporting the initiative.
- ❖ To school authorities to use latrines according to the firm objectives of the project.
- ❖ Kwimba Women Development and education authorities to assure sustainability and firm follow-ups of builded latrines.
