RE: ACCEPTANCE OF THE DAIRY GOAT PROJECT

Refer to the above heading,

I acknowledge the receipt of your letter dated 18/06/2012 under reference Goat/ 20/2012/01 in which you were notifying us of officially introducing a dairy goat project in our District.

In that regard, I wish to draw your attention on the following two points.

- (i) Please refer to the meeting held on 24/06/2012 between you and our staff, we proposed that you replace Migungani Village for Manyamanyama Village because of the suitability of the village to the project.
- (ii) No doubt you saw how enthusiastic to the project are our communities in the village of Migungani, Balili and Nyatwali when you were officially introducing the project accompanied by our staff.

Since the animals will be kept indoors, this means that environment degradation will be tremendously avoided and farmers can then take the advantage to learn and cope with the system. More importantly the project is set to build the capacity of our poor communities to reduce poverty, therefore we wish to say that your project has fully been accepted.

Please don't hesitate to consult our Livestock department personnel for advice when need arises.

Masuke J.M. Ogwa
