Sir;

RE: IDENTITY OF KWIMBAWODE ORGANIZATION IN OUR AREA

The mentioned groups above known to us in this village and their activities in general operated here at our place in Nyamilama Ward in Kwimba district. In the year 2010 the mentioned group of organization completed his/her project of Building toilet at Nyamilama Primary school. They have also done various projects in this village with the nearby villages including various seminars to encourage and teach about development in our society.

In this context, we have no doubt with this organization; they work with all their might. So then to make sure they reached their goals have asked for support equipment in your organization that provides a range of support material variety. We have no doubt we ask them to help they can get these materials, as these materials be able to lift the income of the member and the community at large..

We have faith that you will give the funding of equipment to be one of the sponsors of the organization's Kwimbawode for social development of the entire Kwimba District Council.

We remain yours,

AFISA MTENDAJI WA KIJJI
