**KAMPALA**

**RE: CONSTRUCTION OF PIPED WATER AND SEWAGE SYSTEM IN BUGIRI TOWN COUNCIL**

The Leaders of Bugiri Town Council have identified partners who are willing to support the construction or expansion of a piped and sewerage system in the town. The coordinating organization is Eco International which is a registered private not for profit organization with its headquarters in Bugiri Town but its Executive Director is based in the USA and he is spearheading the process to raise funds for the project.

They would like the project to be developed and operated on Public Private partnership through establishment of a utility company where the public will play a major role in the management of the facility.

The promoters of the project have approached me to introduce them to your Ministry to review their project proposal and grant them the necessary approvals to enable them to proceed with the project. This project is complimentary to the Government efforts to provide clean piped water to our urban population and it should be supported to materialise.

I therefore take this opportunity to introduce to you the Directors of Eco International and to request that you grant them an appointment to meet you to brief you on the project and to advise them on how they may proceed.

  
Rebecca A. Kadaga (MP)  
**SPEAKER OF PARLIAMENT OF UGANDA**

**Encl..** Project Proposal

- Cc. Minister of State for Water
- Cc. The Members of Parliament, Bugiri District
- Cc. The Permanent Secretary, Ministry of Water and Environment
