

# Eden Ministries Uganda

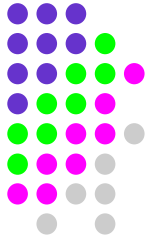

Eden Ministry Uganda was formed by persons with a vision to support, unite and promote community development in vulnerable communities.

Our efforts are currently in the Kamuli and Buikwe districts focusing in the Mbulamuti, Njeru, and Kitayunjwa sub counties and the neighboring districts.

Our goal is to promote community empowerment through building local capacities to handle HIV/AIDS prevention programs, empower youths with skills, and child protection.

### Vision

Promoting community empowerment through building local capacities of their own activities for self-sustainability.

### Mission: "Life in its fullness"

Achieving an economically, self-reliant and empowered community through networking with other partners in development while targeting all vulnerable groups without discrimination.

### Program Goal

Improving the standard of living of the marginalized groups by promoting sustainable development through provision of socio-economic activities, including educational services and health-care awareness.
