Zambia is among the many Countries that have been affected by the Corona Virus which has claimed lives in many Countries around world and Solwezi District has not been spared from the pandemic.

Most of the poor People especially vulnerable women in Zambia live on less than a \$ per day and COVID-19 has just worsened the situation. Women are the most affected people in the communities. In Solwezi, many women are spending the little income raised from their small business. The loss of business and employment opportunities due to COVID-19 has caused many vulnerable women to be involved in prostitution and other illicit activities to enable them earn a living which compromises their human dignity.

The goal of this project is to help 500 vulnerable women recover and sustain families from COVID-19 shocks.
