

BACKGROUND

Kalambi Community Outreach Project (KACOP) is a local Ugandan Community-Based Organisation (CBO) started in 2009 by concerned residents of Wakiso Sub-County of Wakiso District in Central Uganda.

MISSION

To enable marginalized children and their families attain social and personal development through sustainable livelihood, basic medical care and formal education support that help them become positive influence in Ugandan Society.

VISION

To have a society in Uganda where marginalized children and their families lead a dignified and productive life through increased household income and access to basic health and education services.

OVERALL GOAL

To contribute to the reduction of poverty and improve the lives of the poor in the target area through; promotion of health, education and income generation initiatives.

LEGAL STATUS

It is a membership service organisation duly registered as a CBO on September 19, 2011 under Registration Number WCBO/1096/11.

LOCATION

The organisation is located in Bulaga-Kalambi Local Council (LC) 1 Zone, Nakabugo Parish Wakiso Sub-County, Wakiso district.

PROJECT MAJOR ACTIVITIES.

- OVC households mobilization, mapping, follow up and referral.
- Community sensitization and health education campaigns on preventable disease management practices.
- Providing income generating activities to caregivers of OVCs for poverty reduction.
- Provide Formal education support such as schools fees, scholastic materials and food.

Immunization is one of the activities KACOP has put much emphasis

Community Ownership and Gender Mainstreaming

Kalambi Community Outreach Project (KACOP) is a not-for-profit community based organization that responds to the needs of Orphans and Vulnerable Children (OVC) and their families in Wakiso district Uganda. KACOP core program areas are economic strengthening of vulnerable households through livelihood skills training that help selected children and their families initiate income generating activities. KACOP also provides formal education support and basic healthcare to most critically vulnerable children below 18 years.
