A MESSAGE FROM THE TEAM LEADER

Friends and all the well-wishers of Love To Love Organization, as a norm, we always report what we've achieved during the past year. The year 2021 has been a struggle around the world due to the COVID-19 outbreak and it has really affected our work as an organization.

Many programs have been on hold, including the keep me in school program, which has been on hold since 2020, our children who are on this program have been unable to attend school since 2020.

HIV/Awareness and prevention also experienced a pause and a few occasions occurred, as well as a Skills development program.

When the government lifted a little bit, we took advantage of the opportunity to organize some activities again and we were able to kick-start the Skills Development initiative, which helps young people and youth affected by HIV unite through music in order to reduce stigma. This program created hope among 312 youth and young people with HIV and those affected by the disease this year.

Due to our dependence on donations from well-wishers and member contributions, this year we really faced a financial crisis, but we plan to develop social business in our upcoming strategic plan, so that we will have a backup in case there is another wind of change in the future.

Last but not least, I want to thank the organization's board of directors, staff, volunteers, and all well-wishers for their great contributions in 2021. I would like to take this opportunity to thank those who wish to support the organization or volunteers who want to be a part of its success

Thank you

Ssemuli Daniel Steven
Team Leader
Love To Love Organization

OUR VISION

We envision a society free of health-damaging illnesses such as HIV/AIDS and other diseases, where all vulnerable people will have the opportunity to realize their potential and realize their right

OUR MISSION

Love to Love lives to educate and prevent infectious diseases such HIV/AIDS, as well as restore hope to those in need, especially the orphans and vulnerable children.

PERFORMANCE OF EACH PROGRAM IN 2021

1. HIV AWARENESS AND PREVENTION

A major goal of the program is to provide accurate and relevant information about HIV and sexual health to the community. We had a few engagements with the community due to Covid 19, but we did deliver what we could

Figure 1 show William educating the Staff of Dynafarm about the current HIV prevention measures and HIV in general

2. SKILLS DEVELOPMENT

Through this program, we aim to dismantle HIV stigma among children and youth. Our goal is to bridge the gap between HIV-positive youth and non-HIV positive youth and nurture their talent. So far this year, 312 young people and children have benefited from this program.

3. KEEP ME IN SCHOOL

This year, only one child was able to receive education. Her name is Naluwu Jovia Margret, and she passed her primary leaving exams with flying colors.

Congratulations

HIGHLIGHTS OF THE YEAR

1. ICASA 2021 CONFERENCE ATTENDANCE

William Matovu represented the Love To Love Organization at this year's conference, which was a hybrid event. The theme of the conference was Africa's AIDS response:

The race to 2030 – Evidence. Scale Up. Accelerate

Figure 4 shows a certificate of attendance that was awarded to william by ICASA Team

2. FORMATION OF U=U AFRICA FORUM

In the formation of The U=U Africa Forum, Love To Love Organisation played a significant role. The goal of this forum is to advocate for UequalsU to be reflected in guidelines for health ministries on the continent of Africa. It is described in full as 'UequalsU' which stands for Undetectable Equals Untransmittable, meaning if a person living with HIV achieves and maintains undetectable viral load, he or she cannot pass on the virus sexually to his or her negative and this is backed up by different scientific studies including O52, Opposites Attract and Partner Study I & 2. For more information about this just visit [U=U Africa – Prevention Access Campaign](#)

Figure 5 show U=U Africa forum Logo

3. SUPPORT OF ORPHANS AND OTHER VULNERABLE CHILDREN

Mrs. Angella from the US has bought 100 pairs of shoes for the orphans and other vulnerable children many of which had no shoes at all, and we are so grateful for her support and the support of her entire family.

Telephone & Internet Subsc. Fees	-	-
Photos & Photography	-	-
	4,080,000	500,000

Challenges

Since COVID-19, we have faced a very unexplained financial crisis because we are mostly dependent on the contributions of our members and well-wishers. We have had to considerably slow down our operations as a result.

Meet The Team

Lubega Muhammad
Community field officer - HIV and Sexual Reproductive

Team Leader

William Matovu
Administrator

Mwebaze Joseph
Communications officer

Whenever possible, we work with others who have similar values and objectives to our own. Here are some of the organizations we work with.

prevention
access
campaign

Prevention Access Campaign

The Prevention Access Campaign is a health equity initiative to end the dual epidemic of HIV and HIV-related stigma by empowering people living with or at risk of HIV with accurate and meaningful information about their social, sexual, and reproductive health.

The International Music Project

The organization was formed to support Aaron English's work with orphans & HIV/AIDS+ children in Kenya & Uganda. The IYMP provides opportunities for disadvantaged youth to express themselves through music, as well as to learn about the music business and audio/video production.

Having your support is of the utmost importance to us. It doesn't matter how small or large your contribution is. As a result, we invite anyone with a kind heart to donate whatever they can. We greatly appreciate all donations.

We are very grateful to our dear friends around the world who have made such significant contributions to the organization. We are hoping for your continued support in 2022.
