

## WHAT IS REMAR?

REMAR (Rehabilitation of Socially Marginalized People), for the help, promotion and development of the under-privileged, has, for more than 30 years, been working in the fight against injustice, drug addiction, hunger, malnutrition, disease, under-development, illiteracy, child abuse, lack of education and the factors which produce these problems: neglect and abandonment, violence and delinquency.

## WHERE DOES REMAR WORK?

Currently we are active in more than 70 countries, many of them under-developed, where we run projects of humanitarian aid, especially in the poorest areas, working with the most underprivileged groups: abandoned children, children sick with AIDS, single mothers who are homeless, young people who have failed in the educational system, drug addicts, alcoholics, broken families affected by different addictions, needy elderly people, etc... In each country we offer comprehensive aid.

## HOW CAN YOU HELP US?

Remar will never cease to help the most underprivileged in society, and we encourage you to share in this task also. We shall never weary of asking for materials, machinery, medical teams, vehicles, clothing, footwear, medicines, rice and anything else that can be sent from this affluent first world, which has an insatiable appetite for more but which will never be satisfied unless it learns to give. With God's help, we continue to work and seek resources, which can then be sown, as good seed, and later produce abundant fruit.

If you wish to collaborate with the work of REMAR, please contact us, and together we can work out the best way of doing so.

# Remar Programmes

## CHILD CARE PROGRAMME

REMAR runs hundreds of homes where thousands of children are cared for, fed, protected, clothed and educated. These children are orphans, or have been sent to us by the governmental authorities because they have been maltreated, abused, or have suffered from some other serious problem.

## YOUTH PROGRAMME

Remar continues to promote the creation of professional training workshops in order to establish a positive generation of young people, active within the society in which they live. Our young folk need training and preparation for their entry into the working world. For this reason we continue to open up workshops specialising in carpentry, car mechanics, upholstery, dressmaking, computer skills, painting and welding.

## FOR THE ELDERLY PROGRAMME

Through our residential homes for the elderly, we endeavour to bring a solution to the situations of loneliness or neglect which many elderly people experience. At the same time, we encourage them to take part in activities within the Association designed especially for them, so that they can begin to feel useful and needed, because many of these elderly people suffer from an attitude of self-abandonment.

## REHABILITATION PROGRAMME

There exists within society a huge problem of drug addiction, particularly amongst young people. For this reason, the Remar Association, from its very beginnings, has always placed a special emphasis upon the fight to avoid where possible, or to curb, the spread of this social plague. The programme for rehabilitation is the most central of our activities.

## FREE MEALS CENTRES PROGRAMME

With God's help, we are able to feed many needy people. REMAR runs free meals centres in the most run-down areas of the cities of many countries. Here thousands of children and mothers are served a daily meal.

## HEALTHCARE PROGRAMME

Remar continues to promote medical clinics in the fight against endemic diseases. Remar hopes to prevent the spread of sickness and disease through the creation, equipping and improvement of medical dispensaries and hospitals, the promotion of vaccination and preventive medicine campaigns, the training of health workers and other services.

## VOLUNTEER PROGRAMME

The volunteers are the hands and voices of our Organization. Each one is an example of solidarity, trustworthiness and dedication, encouraging others to become involved in the activities they carry out in the different countries all over the world.

## WE ARE STREET ANGELS

We offer help in the most conflictive areas of the cities where Remar is active. Food is distributed to drug addicts – maybe the only meal they eat all day. Thanks to the food donations received by Remar, we are able to offer sandwiches, hot drinks in winter and cold drinks in summer, biscuits and yoghurt.

## HUMANITARIAN AID CONTAINERS

Remar sends out help in the form of humanitarian aid containers, which boost the development of all the activities: the improvement of the Remar centres in the Third World; the offer of humanitarian aid to people living in conditions of extreme poverty or in crisis situations, through the distribution of clothing, food, medicines and other basic materials.
