

Psalm 127:1 – Unless the Lord builds the house, the builders labor in vain....

Building a new house from the ground up is a big milestone for many families, couples and individuals. It is often a vigorous process that takes many months, and can involve setbacks, small victories and patiently watching it all come together into a place you will soon call home.

We often have grandiose visions of what our dreams look like but what we forget is that they probably won't start out looking that way. Big dreams start with small steps. At first, what we're doing seems quite unimpressive but we must start with that foundation and allow it to grow and evolve.

Sam and Mary are a Christian hosting family in Uganda, since 2018 they have been hosting and accommodating people of all ages from Europe and the states. Understanding their role as co-laborers with God, they intentionally seek to create partnerships with a heart to host missionary teams to promote the work of transformation and bring holistic long-term change in poorest communities in Uganda

Currently they are constructing a Mission House that would accommodate small groups, families, couples, individuals, missionaries and volunteers who travel to Uganda for purposes of the great commission and Christian based humanitarian ministry/activities.

Believing its calling from God, they work in partnership with both local and international churches to meet the needs of vulnerable children and young adults living in slums and remote communities of Uganda, who would otherwise have no access to education, health care, among other services and would never hear the gospel message of Jesus Christ. <https://peculiarchild.org>

We hope that you will consider joining them through prayer and support to complete the mission house construction project.

Proverbs 24:3-4 – By wisdom a house is built, and through understanding it is established; through knowledge its rooms are filled with rare and beautiful treasures.

We are thanking God for You.
