

About DAVES

Doyow Agriculture and Veterinary Solution (DAVES) is a social enterprise currently operating in the agriculture and livestock sector in Somalia.

- Our aim is to revolutionize the provision of modern agricultural technology, livestock, and veterinary services for farmers and pastoralists in Somalia by creating a more sustainable solution to support unique environmental needs.
- We work collaboratively with the Somali community to supply modern agricultural technology and veterinary products that are accessible and environmentally friendly.

Our Products and Services

At DAVES we offer the following customized products to our community:

- ✓ **Green Houses:** This provides a controlled growing environment for crops with the ability to easily control pests and diseases to prevent crop damage.
- ✓ **Drip Irrigation:** This process ensures the even distribution of water to enable fertigation through an easy to install and maintain pipe system.
- ✓ **Gold Medal Seeds:** We offer a wide variety of easy to grow seeds.

- ✓ **Solid Portable Tanks:** We offer Portable and easy to refill tanks with a guarantee.
- ✓ **Fertilizers:** We provide environmentally friendly and well tested fertilizers for the entire season that includes defined application amounts.
- ✓ **Agro- Chemicals:** Our products are environmentally friendly and safe to use products that comply with European standard pesticide guidelines.
- ✓ **Training and Outreach:** We provide training to our farmers and guide them through our services and processes.
- ✓ **Dams Lining:** We also offer lining for dams to prevent water contamination and water seepage.
- ✓ **Technical Advisory and Consulting Services**
