Social & Healthy Action For Rural Empowerment is a grassroots level voluntary organization which has dedicated its activities since 2001 in the areas of uplift in the socio- economic, educational & health status of the poor and marginalized communities through efforts for integrated rural development .A strong team work and will power is the most important asset of our organization. For the last several years, SHARE has worked hard to undertake the philanthropic work through donation from local people and through our own means. We got support from donors since November 2006 when an agreement between the organization and JTDS was signed for the implementation for IFAD-JTDS supported Jharkhand Tribal Development Programme in tribal dominated areas of Potka block under East Singhbhum district.

We have good reputation among the government, semi govt. and private agencies and we are under support from the Central Social Welfare Board, Govt. of India under, UNICEF under BCC,NML We have 70 Self Help Groups of marginalized women with a huge saving through regular meetings and continuous savings by the village women. These groups have ensured peoples participation in our programs and activities.

Most of our previous activities are performed under support from internal sources of the organization, donation from the individuals & organization. Till date we have been dedicating our activities in the field of empowering village community for their improved access to Government facilities and their entitlements.

Background

Social and Healthy for Rural Empowerment (SHARE) came into being with the commitment to an all round development and prosperity of rural people in general and Scheduled Tribes in particular. Having lived amidst nature, the people of Jharkhand are endowed with rich culture, forests and minerals. Ironically, it is also one of the most backward regions of the country. We have set our vision and aspirations of the people of Jharkhand of achieving social equity, prosperity and involvement of the weakest and most backward sections of the society in the developmental process.

SHARE has been concerned with the cause of tribal, women, children and underprivileged section of the society. It has been implementing educational, environmental, agricultural, self-employment, social empowerment, health programme, micro finance, watershed development, and agricultural and other awareness generation activities in remote and distant rural areas of East Singhbhum, Seraikela-Kharsawaan and Hazaribag districts of Jharkhand.

The organization has experienced the agriculture has lower trend of growth rate, through it provides livelihood to the majority of the population. In this scenario, the development of this sector becomes critical for the entire socio-economic developmental process of the State. Generally, farmers yield one crop annually. In some pockets they travel far of places for drinking water especially during summer. All this is because of water scarcity and rainwater being the only source of agriculture. Therefore, we have started conducting awareness generation programme on rainwater harvesting in some pockets of East Singhbhum and Hazaribag districts of Jharkhand.

The organization has given top priority to peoples participation in these areas. Formation of Self Help Groups (SHGs), Village Development Committees, Forest Protection Committees, Water and Sanitation User Groups, Youth Clubs, Farmers' Clubs, Adolescent Girls' Clubs, has strengthened people's involvement in development activities. It is also focusing on controlling child labour in these areas. The main concern of the organization is Tribal Development, Women & Child development.

SHARE also conducts awareness programmes on important Health issues pertaining to child and mothers health, youth and adolescent girls. In this ways organization has been engaged in improving the quality life of the rural masses. It promotes and undertakes healthy social developmental measures to provide a platform, where peoples, partnership and participation at all levels could be ensures.

Our vision for the people of the State is to achieve a healthy, educated, egalitarian and just social order. Where minimum basis needs of food, shelter, health, education and drinking water have been taken care of and each individual is able to access all the opportunities for their personal, educational and skill development.

Vision

A healthy, educated, egalitarian and just social order.

Objective

- o To prioritize sustainable development
- o Integrated Development of the weaker sections in general and Scheduled Tribes in particular.
- o To promote health, education and environment in rural areas.
- o To work for women, youth and child empowerment

- o Awareness among communities on legal issues, rights and responsibilities.
- o Monitoring, Research, Evaluation, Survey Work, Reporting and Documentation
- o Micro Finance through Self Help Groups
- o Formation of Youth Club and Farmer Club
- o Rainwater Harvesting and Watershed Development
- o Fine Arts and Crafts Training
- o Capacity building

STRATEGY

We believe in interventions at regular intervals in our programme area and persevere for quite some time. We assimilate with the community people and push project parameters over a stretch of time. This bears dramatic results in the long run.

Though we take up one or two issues when we enter programme area, ultimately we end up taking the holistic perspective. By our sincere efforts we impress upon our subjects in such a manner that they become party to this developmental process voluntarily and readily. Starting from the promotion of grassroots institutions like SHGs, Village Development Committees, Gram Sabhas, we proceed by enabling the whole village to act in unity and participate actively in the National Building Endeavour.

Integrated Development is the keyword!

In a nutshell, our strategy has been to improve socio-economic backwardness by exploring opportunities at village level through optimum utilization of available natural, institutional and human resources in the best interest of the rural populace.

SHARE's 'bottom up' approach ensures community involvement in all spheres.

Achievement

- o 110 SHGs formed in the districts of East Singhbhum and West Singhbhum
- o Bank Linkage of 78 SHGs
- o 39 SHGs received revolving fund and involved in income generation activities.
- o 55 rural women educated under literacy programme
- o 26 women trained in cottage industries for candle making and Incense Sticks making.
- o 132 women are trained in tailoring under vocational training course
- o 15 youth clubs are formed in Potka block in East Singhbhum and Katkamsandi block of Hazaribag district
- o 7 farmer clubs and formed in Jamshedpur block under East Singhbhum district
- o 383 ST/SC village beneficiaries were provided fish seeds under 100 percent subsidy scheme of Department of Fisheries Development (State Government)
- o Survey of child Labour was conducted in Hazaribag District
- o Rallies and protest against the sale and consumption of liquor
- o 100 girls child labour from 18 district of Jharkhand represented through SHARE in the National Convention on girl child labour held at Mysore in the year 2003
- o Efforts made to preserve and conserve the places of historical importance and cultural values
- o Workshops/ seminars/campaigns/meetings were organized on various social and economic issues.
- o Raised awareness on recently enacted law on Right to Information , ARSH and other issues at different places of Kharsawaan and Jamshedpur.
- o Constructed 126 Ponds, 10 village approach road, 52irrigation canal, 2 drinking water well etc.
- o Implementing SCA to TSP in 6 targeted tribal villages under Potka block of east singhbhum district during 2013-14
