**Recommendation letter for  
Elshaddai Ministries**

I'm the founder of the NGO organisation INTACT SCHWEIZ. It's 12 years ago when I started this organisation to help the girls/women and families tribes on Kalrayan Hills nearby of Salem, Tamil Nadu, India. We are supporting in the meantime many villages up in this mountain area and started our own Campus in Vellimalai. Please find more information on our lively homepage: [www.intactschweiz.ch](http://www.intactschweiz.ch).

How is my contact to Elshaddai Ministries?

I know Mrs. Priscilla since many years and I'm always impressed about the efforts which she and her organisation are investing to help poor people in their area. Once she introduced a project in which the Elshaddai Ministries checked the eyes of children and provided them glasses when there was a need.

Another time I got informed about a school bus project which they want to start to bring the school to the poor children instead of picking children up to bring them in any school. It seems to be a much innovated project and the way how they made the pre clarification to start with the idea was very impressing.

It is my honest necessity to ask any sponsoring organisation or supporting institution around this world to trust this little organisation Elshaddai Ministries and to help them to go on with their way to bring some long term positive change to the poorest around Chennai.

Please don't hesitate to ask any further questions if needed for your decision to support Elshaddai Ministries.

Sincerely,

Elsbeth Scacchi  
INTACT SCHWEIZ
