2. In the spirit of Partnership and collaboration, the Ministry readily offers technical support to organizations working in line with her mandate when needed. Hence, the relevant Departments of the Ministry shall be notified to include your center in their training plans that target the building of capacity of your staff in order to enhance their skills.
3. FMOH however, may not be able to provide your center with the required intervention materials as there is no budgetary provision for this. You may wish to liaise with the Federal Ministry of Women's Affairs and Social Development who have the mandate for this.
